

## JOINT ACTION FOR THE ALPS – CONSERVE, CONNECT, AND RESTORE

### Alpine Convention Biodiversity Conference & ForumAlpinum: The Alps – a Refuge for Bio- and Geodiversity?

12.-14. June 2024 - Kranjska Gora, Slovenia

#### **The Alps: Call for posters for students, young and early-career researchers**

ForumAlpinum is a scientific conference aiming to promote international research cooperation on topics of relevance across the entire Alpine Arc. ForumAlpinum has also been designed as an interface between the scientific community and policy, providing opportunities for a science-policy dialogue.

ForumAlpinum 2024 titled »The Alps – a Refuge of Bio- and Geodiversity?« will focus on biodiversity and geodiversity that are under severe threat worldwide and especially in sensitive ecosystems like the Alps. It will identify hotspots of bio- and geodiversity, their monitoring and management in the Alps, analyse land use conflicts and their impact on bio- and geodiversity, and assess the relevance of bio- and geodiversity protection in the regional, national or international context to discuss possible solutions.

This year, we would particularly like to invite students, young and early-career researchers from various scientific disciplines to present posters with their research findings relating and relevant to the Alps. Poster topics may relate to the conference theme of bio- and geodiversity, but contributions on other alpine topics are very welcome as well.

Poster presentations are particularly suitable to present work in progress and foster discussions and exchange. In addition, you will have an opportunity to discuss your findings with your counterparts and to establish contacts with researchers from other European countries on topics related to the Alps.

Please provide your poster abstract and your contact information by May 10, 2024, using the web form: <https://1ka.arnes.si/YoungForumAlpinum>. We will inform you about the acceptance of your poster by May 20, 2024, and provide further information on the poster design and technical issues. Posters must be written in English and will be exhibited during the conference. Abstracts of the posters will be published in the conference proceedings.

Please spread this call in your research networks. We are looking forward to your poster abstracts!

The Organising Committee of the Forum Alpinum 2024
