Willkommen...

...zum ForumAlpinum 2010 in München!

Weshalb findet das ForumAlpinum im Zentrum von München statt?

Der Alpenraum ist vielfältig mit den nahe gelegenen Metropolen und Agglomerationen vernetzt. Das ForumAlpinum 2010 nimmt unter dem Motto „Metropolen und ‚ihre‘ Alpen“ die aktuelle raumpolitische Diskussion der EU zur Frage der Makroregionen zum Anlass, Wechselbeziehungen zwischen den Alpenrand-Metropolen und dem Alpenraum aus wissenschaftlicher und politischer Sicht zu diskutieren. Themen wie Urbanisierung, Mobilität, Biodiversität, Klimawandel oder Georisiken stehen im Mittelpunkt der Plenarvorträge und Workshops. Abschließend werden gemeinsam mit Bürgermeistern aus Alpenrand-Metropolen und Vertretern der Alpenregionen, der Europäischen Union und der Alpenkonvention Grundlagen und Perspektiven für gemeinsame Strategien mit Blick auf eine europäische Makroregion „Alpenraum“ erörtert.

Im Namen der Bayerischen Akademie der Wissenschaften und des Internationalen Wissenschaftlichen Komitees Alpenforschung laden wir Sie herzlich ein, sich beim ForumAlpinum an den Diskussionen über Metropolen und „ihre“ Alpen zu beteiligen. In der Residenz im Zentrum Münchens bieten wir dazu ein inspirierendes Ambiente!

Bienvenue...

...au ForumAlpinum 2010 à Munich!

Pourquoi organiser un ForumAlpinum en plein centre de Munich?

L'Arc alpin est indissociable du tissu urbain que constituent les métropoles et les grandes agglomérations environnantes. Placé sous l'enseigne „Les métropoles et ‚leurs‘ Alpes“, le ForumAlpinum 2010 s'inscrit dans la ligne du débat européen sur les macro-régions et propose d'analyser les interactions entre l'Arc alpin et les métropoles limitrophes, sous les angles scientifique et politique. Les exposés en plenum et les ateliers traiteront d'urbanisation, de mobilité, de biodiversité, de changement climatique, de géo-risques, etc. Cette rencontre sera l'occasion d'élargir le débat et de jeter les bases de stratégies communes pour une macro-région européenne „Arc alpin“, avec le concours des maires de métropoles limitrophes et de représentants des régions alpines, de l'Union européenne et de la Convention alpine.

Au nom de l'Académie bavaroise des sciences et du Comité international scientifique recherche alpine, nous avons le plaisir de vous inviter au grand débat sur les métropoles et leurs Alpes. Venez nombreux, une ambiance stimulante et enrichissante vous attend dans notre résidence située en plein centre de Munich!

Benvenuti...

...al ForumAlpinum 2010 a Monaco di Baviera!

Perché il ForumAlpinum avrà luogo nel centro di Monaco di Baviera?

La zona alpina è legata sotto molteplici forme con le metropoli e le agglomerazioni vicine. Il ForumAlpinum 2010, seguendo il motto „Le metropoli e le ‚loro‘ Alpi“, si dedica all'attuale dibattito all'interno dell'UE nel ambito della pianificazione territoriale sulla questione delle macroregioni, le correlazioni tra metropoli periferiche alle Alpi e la zona alpina. Il tutto verrà esaminato da un punto di vista sia scientifico che politico. Soggetti come l'urbanizzazione, la mobilità, la biodiversità, il cambio climatico, i rischi geografici, saranno al centro dell'interesse di conferenze plenarie e workshops.

Successivamente i sindaci di metropoli periferiche alle Alpi e rappresentanti delle regioni alpine, del UE e della convenzione delle Alpi discuteranno a proposito della base comune e le prospettive per una strategia in vista di un mercato regionale delle zone alpine.

A nome dell'Accademia bavarese delle Scienze e del Comitato internazionale scientifico ricerca alpina la invitiamo cordialmente a partecipare alle discussioni sulle metropoli e le „loro“ Alpi. Lasciatevi ispirare dall'ambiente favorevole nella nostra residenza al centro di Monaco!

Dobrodošli...

...na Alpskem Forumu 2010 v Münchnu!

Zakaj se bo Alpski Forum odvijal v centru Münchna?

Alpski prostor je na mnogotere načine povezan z bližnjimi metropolami in aglomeracijami. Aktualna prostorsko-politična debata o makroregijah v EU je bila za Alpski Forum povod, da se z gelsom „Metropole in ‚njihove‘ Alpe“ iz znanstvenega in političnega zornega kota loti razprave o vzajemnih odnosih med obalpskimi metropolami in alpskim prostorom. Teme kot so urbanizacija, mobilnost, biotska raznovrstnost, podnebne spremembe in geološka tveganja bodo tokrat v središču plenarnih predavanj in delavnic. V sklepnem delu se bomo skupaj z župani obalpskih metropol in predstavniki alpskih regij, Evropske Unije in Alpske konvencije pogovorili o temeljih in perspektivah za skupne strategije s pogledom na evropsko makroregijo „alpski prostor“.

V imenu Bavarske akademije znanosti in Mednarodnega znanstvenega odbora za raziskovanje Alp vas prisrčno vabimo k udeležbi na Alpskem Forumu in diskusijah o metropolah in „njihovih“ Alpah. Mestni grad Residenz v centru Münchna pa nam bo v ta namen nudil navdihujoč ambient!

Welcome...

...to the ForumAlpinum 2010 in Munich!

Why is the ForumAlpinum being held in the centre of the city of Munich?

There are any numbers of links and connections between the Alpine Arc and its adjacent cities and agglomerations. Under the motto of "Metropolises and 'their' Alps" and in the context of the current EU-wide discussion of macro-regions and spatial policy, the 2010 ForumAlpinum will explore the relationship between the Alps and large cities along the Alpine Arc from scientific and political angles. Plenary talks and workshops will focus on topics such as urbanisation, mobility, biodiversity, climate change and georisks. The ForumAlpinum 2010 will culminate in a discussion uniting mayors from cities along the Alpine Arc and emissaries from Alpine regions, the EU and the Alpine Convention to address essential requirements and perspectives for joint strategies to achieve a European macro-region in the Alpine Arc.

On behalf of the Bavarian Academy of Sciences and Humanities and the International Scientific Committee on Research in the Alps, you are cordially invited to make your contribution to discussions on Metropolises and "their" Alps. The Residenz in the heart of Munich will provide a uniquely inspiring setting!
